

**EcoCost Meeting Minutes**  
**Date March 28, 2021**

**Meeting Start: 8:10 PM**

**Meeting End: 9:02 PM**

**Attendees:** Christian Schmachtenberger, Hunter Johnson, Jackie Diep, ~~James Rinchart, Joshua McGehee, Durlab Man Sherehan~~

**Relatively low content meeting because transitional period between planning and implementation. Also missing half of the group due to schedule conflicts**

**Meeting of March 21, 2021 was cancelled due to 4/6 of the group not being available.**

**Items Discussed and Decisions Made**

- Spoke about using PostgreSQL to test the Database
  - Went through the installation and setup together
- Removed some of the requirements that may be revisited later because of time constraints
- Spent a lot of time discussing how we will make time for the project, and discussing gaps in knowledge between group members and where they come from
  - Honestly really helpful conversation because I was starting to think that I was super behind in my education despite graduating this semester. It seems like most of my issues come from this being my first group project and that I never took any web design type classes.
