

**EcoCost Meeting Minutes**  
**Date February 28, 2021**

**Meeting Start: 8:00 PM**

**Meeting End: 8:40 PM**

**Attendees:** ~~Christian Schmachtenberger~~, Hunter Johnson, Jackie Diep, James Rinehart, Joshua McGehee, ~~Durlab Man Sherchan~~

**Items Discussed and Decisions Made:**

- **Design**
  - Discussed exactly what “Design” refers to
  - Clarified that James and I are still struggling through learning Golang to implement into the project, and that we are doing our best
  - Christian provided a much better requirements list than last meeting so that we may research particular items rather than an overall understanding of the language
  - Asked group members to briefly explain how I go about implementing my backend code into their frontend
    - Basically their frontend is a template that I plug things into?
  - Talked about implementing the csv import into the project
  - Briefly discussed design review
  - Clarified about who will be around to ask for help outside of meetings at random times
- **Scheduled an interim meeting to talk about how things are going since this meeting was lacklustre and members are still trying to figure out how to do the project**

Note: For our purposes, each student is to post the meeting minutes to their personal repository.
