Items Discussed and Decisions Made

- Waited 10 minutes to see if Christian would be able to get off of work
 - He did not, so we started on our own
- Went through the powerpoint that I made to fill in details that I had questions about
- Hunter and I cleared through requirements/design and the amount of implementation in each module
- Left database and testing section segments to Christian next chance he would get
- Talked about updating state diagrams and screenshots (Which were cut out of the powerpoint in favor of a demo anyway)
- Assigned last minute tasks to finish before the final review
